

Dear Dropshippers,

Please be aware that you will be charged tax for orders selling to UK and other EU countries when Brexit officially takes place. Before that happens, we want to confirm with you if you have any other valid VAT number applied to European Union, which can help you exempt tax by us, except selling to NL.

Please follow the process described below when requesting a new VAT number:

- Provide us the new email address to create a new account
- Provide new VAT number and contact information
- Our team will contact you for VAT company verification (transfer 0.01 EUR from Paypal/ bank under the VAT company name)
- After verification, new account will be created. If there is any balance, please request to [dropshipment@vidaxl.com](mailto:dropshipment@vidaxl.com) to refund to your provided Paypal or Bank account.
- Old account will be disabled when the new account is ready.

For any further questions, please contact [dropshipment@vidaxl.com](mailto:dropshipment@vidaxl.com).
